

K-LOVE serves me as a resident of VA Beach by playing safe, positive, and encouraging music for myself and my kids to listen to in a time where so much negativity is looming on the air waves. If KLOVE were to be displaced by an LPFM broadcaster, how can I be confident that the programming will be of the same "safe" music? The answer is that I already know in my heart that the programming that will displace KLOVE, WILL NOT be positive and encouraging for my kids. Everyone else has variety in their music selection already on the air waves, please do not take our right to listen to wholesome, family friendly music from our lives. Thank you for your time.
